

## The Tonol App boasts a variety of modules tailored to streamline your operations:

1. **Build Order:** Effortlessly input items through scanning, tapping on flyers or catalog items, or manual entry. Your orders will never timeout, allowing you to add to them until you're ready to send for processing.
2. **Order History:** Easily access and edit previous orders for quick reordering, additions or easy modifications.
3. **Flyers:** Display weekly and monthly flyers to customers, who can add items directly to their carts with a simple tap.
4. **Catalogue:** Make your complete catalog available to customers 24/7, providing a convenient and speedy ordering experience.
5. **Photos and Videos:** Resolve product issues efficiently by allowing customers to send pictures or videos of damaged products, enabling swift replacements or refunds.
6. **Contact Us:** Highlight your company's contact information and allow customers to select their dedicated sales representative, enhancing personalized interactions.
7. **Video Call:** Establish face-to-face connections with your customers, giving you the opportunity to understand their needs better and suggest products in real-time while maintaining a strong relationship.

## In their words:

*Tonol App is very easy to use and very convenient. Not all retailers (especially small ones) have an inventory tracking program, which means you cannot sit in front of your computer and place the order, unless you waste your time by writing the order on the paper - so doing your work twice. With Tonol app you can go on the floor with your tablet or your phone and place your order as you are checking your store, stockroom, cupboards, etc.... It really makes our ordering easy!*

*And with ability to contact your sales rep through the app (via camera) it really helps both of us (sales representative, and buyer) to share new products with us or simply ask questions if you have any!*

Dragana Lazic, General Manager  
Great Canadian Gifts & Maple Leaf Souvenirs & Cascade Gift Shops

The app is easy to use, fast to respond and the video calls are clear.

Anytime Convenience  
Guelph, ON

I find the app user friendly in terms of details regarding pricing and for quick access to Falls inventory.

Alan Goulart - Supervisor Operations  
Recreation and Culture  
Town of Oakville

I'm an older person so learning new things sometimes is confusing but with this app everything I need is right there.

Tina, Target Store  
Simcoe, ON

The new app is faster and easy to navigate. I so far have had no problem using it. Thank you.
